DATA SHEET

ProSolve Silver Zinc Aerosol

SZG5A

DESCRIPTION

A tough, quick drying galvanising spray used throughout industry to coat and give protection to bare metals and galvanised surfaces.

It has excellent coverage and opacity, and it protects against corrosion.

FEATURES

- Mixture: At least 25% Zinc Powder
- Excellent protection against corrosion
- Non-conductive
- Touch dry: 2 mins (at 20°C)
- Fully dry: 15 mins (at 20°C)

APPLICATION

Remove any loose rust or dirt and ensure that the surface is dry and free from deposits such as oil or grease to provide an effective finish with good long-term protection.

Apply a light, even coating from 9" - 12" (25 - 30cm) and allow to dry completely. If required, subsequent coatings can be applied to increase the thickness of the film. N.B. To prevent blockages, invert the can after use and spray to clear the nozzle.

HEALTH AND SAFETY

A Safety Data Sheet is available upon request.

STORAGE

Store vertically at temperatures below 50°C and away from sources of naked flame or direct heat.

SHELF LIFE

Under normal ambient temperatures this product has a shelf life of not less than 72 months.

IMPORTANT NOTICE

All statements, technical information and recommendations are based on tests we believe to be reliable as at the date of hereof, but the accuracy or completeness thereof is not guaranteed. Please ensure before using the product that it is suitable for your intended use. Since the conditions and methods of use of the product and of the information referred to herein are beyond our control, other than for fraudulent misrepresentation, ProSolve expressly disclaims any and all liability as to any results obtained or arising from any use of the product or reliance on such information.

BEFORE USE, CONSULT THE SAFETY DATA SHEET OF THE PRODUCT.
